## THE CITY.

A Dog Ordinance.-All our neighboring cities have fortified themselves against mad dogs and hydrophobia by stringentcity ordinances providing for the summary execution of all vagabond curs found upon the to meet in their respective Wards and street. The dog star is approaching the Township, on Friday evening, July 22d, season of its malignant influence upon the canine tribe, but as yet our City Fathers have made no demonstration against the multitude of vagrant, homeless, howling, hungry curs which roam the streets and make night hideous with their diabolical clatter. At the last meeting of the Council an ordinance was introduced providing pains and penalties with which to touch the sympathies of all owners of dogs running at large, and further directing the police authorities to execute, without trial or benefit of clergy, all dogs running at large, and it is to be hoped that at the next meeting the ordinance will be passed, and thereafter rigidly enforced. As a sanitary measure it is a necessity, indispensable to the entire safety of the community, and as a measure for replenishing the depleted treasury of the city, it is not without merit to recommend it to the attention and approval of the guardians of the city.

AN ARBITRARY AND EXTRAORDINARY PROCEEDING .- A young gentleman from Lancaster, overpowered by the heat yesterday afternoon, was in the act of reviving his drooping spirits by dexterously throwing himself outside of a brandy smash at a popular saloon, when a young lady of Phalon's "Night Blooming Cereus." pleasing appearance but indignant aspect, Phalon's "Night Blooming Cereus." rushed in, and seizing him by the collar, exclaimed-"I want you-come along." The interesting young man deliberately gulped down the smash and quietly walked off with his tair captor. The large number of Phalon's "Night Blooming Cereus." gentlemen present were quite upset by this extraordinary and mysterious proceeding, and were compelled to look at the ceiling several times through the bottom of tumblers to elucidate it, but without success-The last seen of the young man he was in the power of the lady, who led him towards the railroad depot by the ears!

MURDER OF A NEGRESS IN CLEVELAND. -Capt. Jacob Diehl, formerly of the 24th Ohio Regiment, got into a difficulty with an old negro woman living next door to him, who persisted in looking over his fence and using abusive epithets to his wife. On Monday night a quarrel arose, and the old lady was prevailed upon by her daughters to go into her own house; but Diehl not content with the quarrel alone, went into his house, procured his revolver, jumped over the fence, and approached the door of the colored woman's house, and when about three feet from the door, (Mrs. Tyler being detained in the house by her daughters,) deliberately aimed his revolver at her head and discharged it, the ball entering the forehead just above the right eye, passing entirely through the head, killing her instantly. Deputy Marshal Smith, with a posse of men, searched the house of Diehl, and found him secreted in a back room or pantry. When arrested he acknowledged to the Marshal that he shot the woman, and remarked that "He would not allow any d-d nigger to call his wife names." He was then taken to the City Prison and South High Street. locked up.

SUNSTROKE.—A well dressed and intelligent gentleman, whose name we could not learn, was sunstruck near the corner of High and Spring street yesterday afternoon, and was prostrated to that degree that he remained for several hours insensible. A conductor on the street railroad went to the assistance of the stranger, and with the aid of a policeman, assisted him into the saloon of Mrs. Perry, where he finally recovered. Dr. Thompson took him in charge, and rendered him all the medical aid in his power.

POLICE COURT.-Six cases were disposed of in the court of his Honor, Mayor Thomas, yesterday morning, consisting of an equal division of frall females and dissipated veterans. As a remarkable incident it may be mentioned that one of the culprits, a young girl who made her debut in the court, actually shed tears! So unusual a phenomenon from such a source quite overpowered the Court, and she was dismissed with a reprimand as a person not entirely lost to womanly feel-

AURORA BOREALIS.-Nature gave a free exhibition of magnificent fire works last night to all who remained out of bed late enough to see, or who raised their eyes from the dusty world to the pure blue above. The northern lights shot upward from a bed of flame in the northern horizon in broad and glittering shafts, which almost reached the zenith, and then faded away as swiftly and suddenly as they appeared. The spectacle continued until the curtain was rung down by some etherial prompter; a veil of fleecy clouds obscured the view, and closed the performance to mortal eyes.

MARKETS .- The scale of prices in our domestic market goes upward at the bidding or the combination of hucksters who collect on Fourth street and fix the rates in the night season, previous to market hours,-There is, we understand, a counter combination about to be organized by citizens to supply the market with vegetables and other seasonable articles at reasonable prices, and it is expected that the extortionists who are now absorbed by a greedy desire to make a fortune in a week will be broken on the wheel which they have so long kept in motion for the benefit of citizens.

HUMBUG POLITICAL NEWS FROM NIAGARA

News from Rebel Sources. Good News from Sherman - At-

lanta within range of his guns. WASHINGTON, July 19 .- Government is ounces that on having previously crossed the Chattahoochie, his whole army advanced ive miles south of the river and crossed Reachtree creek. This advance was made without any resistance from Johnston's ar-my except slight skirmishing with his rear

This movement necessarily forces John-ston into the defences of Atlanta, and places the city within range of Sherman's guns.

Reported Battle in Georgia. this morning has a report that a great battie has been fought in Georgia, resulting in the complete overthrow of the Confederates the capture of Atlanta and 15,000 rebel pris oners. Arrivals from City Point as late as can have arrived at Norfolk say nothing of it. Report doubtless premature.

FORTRESS MONROE, July 18.—The Rich-nond Enquirer of the 16th contains the

following dispatches: ATLANTA, GA, July 14.—Two brigades of Yankee cavalry crossed the Chattahoochie at Moore's bridge, nine miles from Noonan, last night. They were met by Armstrong's origade of cavalry and driven back, and the bridge burned. There is no change in the situation of affairs at the front. The enemy are firing artillery occasionally across the river.

SECOND DISPATCH. ATLANTA, GA., July 15 .- Governor Brown having official advices that persons within the military age, having Confederate details to remain at home in pursuit of their ordinary avocations, express a determination not to obey the recent order to report at Atlanta for the defence of their homes and State, he instructed the proper authorities to arrest all such persons and send them under guard to Atlanta, and that if force is used against lawful authority, sufficient force will be sent to any point to overcome the resistance. He admonishes the men that have been detailed by the Confederacy for agricultural purposes that their crops will not be endangered by their absence for a short period.

CHARLESTON, S. C., July 10.—The enemy have evacuated Johnston Island. It is noticed that transports are quite busy carrying troops, chiefly to Morris Island. The bombardment of Sumter is kept up by the enemy.

Great Excitement in Missouri... Col. Ford after the Guerrillas. St. Louis, July 19 .- The Democrat's St. Joseph special says the city and country are wild with rumors and excitement. It is reported that Col. Ford attacked Thornton's guerrillas at Arnoldsville on Sunday. The fighting was kept up all day, but the result is unknown. Another body of guerrillas from three to six hundred strong are en-camped on Goerdon's farm, in Platte coun-Official information states that two hundred more of the paw paw militia of Platte and Clay counties have joined Thornton's guerrillas. A collision occurred in Atchison county, but the extent is not known. Gov. Hall has commissioned a copperhead to command the Andrew county militia, and trouble is anticipated. People are constantly flocking into St. Joe from the surrounding country, and many are leaving for other point. The grain is left unharvested and much suffering is antici-

pated in some localities. St. Joseph, July 19.-Col. Ford telegraps to headquarters here that he has killed in all forty guerrillas, captured 200 stand of arms, much ammunition and many horses. Our troops are still pursuing the ene

St. Joseph, July 19 .- It appears that Col. Ford left two bands of guerrillas, numbering nearly two hundred, in his rear, who ing nearly two hundred, in his rear, who are committing all manner of depredations in the southern part of the county. A large scouting party was sent from here this morning, but have not been heard from.

Every train from Weston brings a large number of refugees from Platte, Clay and

Ray counties, many of whom stop here while others go eastward. It is said the en-tire militia of Andrew, Holt. Atchison. Nod-away and other counties in northwest Missouri, will be called into service.

Gurney & Co., of this city, have just re-ceived sixty-five pounds of gold dust from Virginia City.

Important from Petersburg. PHILADELPHIA, July 19.—The Press' Army of the Potomac correspondence, dated the 15th, says that the artillery fight of that day lasted two hours, when our shells burst directly in the rebel embrasures, destroying their cannon and forcing them to retire. They lost at least six guns. The breastworks lately occupied by the enemy, barring our advance towards Petersburg, have been levelled.

After the Clerks-From Sherman's

New York, July 19.—The Commercial's Washington special says that the Heads of Departments have called for lists of clerks who refused to join the force in defence of Washington.

An officer from Sherman's army says that on the 10th the army was all over the Chat-tahoochie, and within four miles of Atlanta. The 11th and 12th corps are consolidated forming the 20th under Hooker.

Change of Owners of the Steum ship Line between Aspinwall and

New York.

New York. July 19.—It is reported that Commodore Vanderbilt is about to sell the steamships Champion, Ariel, North Star steamships Champion, Ariel, North Star and Ocean Queen, comprising the line between New York and Aspinwall, to a new company, which will probably continue his present arrangement with the Pacific Mail Steamship Company. The new company is expected to make the accommodations of the Atlantic steamers equal to those of the excellent boats on the Pacific side or the anothers.

News from Rebel Sources and The Rebels Shelling General Foster's Hendquarters.

New York, July 19. — The Richmond Whig of the 15th has this dispatch: Headquarters, July 14.—A brigade of Federal cavalry crossed the river last night opposite Newran, but were driven back by Brigadier General Armstrong. All quiet [Signed.] JAMES F. JOHNSON,

The same paper says Sheridan, with two origades, was moving towards Portsmouth. Some think they are getting towards North Carolina—others that they are bound for Maryland, embarking at Portsmouth.

Richmond papers of the 16th are exceed-ingly jubilant, and announce the capture of Baltimore, Washington and New Orleans. The Herald's James river correspondence of the 16th, midnight, says the rebels shelled General Foster's headquarters at Steep Bottom that day for upwards of an hour. and their range was so accurate that they had to be changed several times. Shells went through the General's tent. No lives were lost. They also opened on the gun-boats and pontoon bridge. The Mendota received a shot in the bulwarks, killing two men and wounding four others. The Mendota opened on the enemy and soon silenced their battery. Grant visited Foster to-day. The enemy were shelling the place when

Important from New Orleans. Sr. Louis, July 19 .- The Union publishes an extract from a private letter, dated at New Orleans on the 7th, which says: "Last night a staff officer told me that fifteen thousand men would start from this city and below on the ocean steamers to-day

They take fifteen days rations and ammunition. Sharp accompanies the expedition. Also, there is now a large number of addiin receipt this morning of glorious news from Sherman. It is not news of a battle, but something better. Gen. Sherman antion is for the capture of Mobile, so as to tional gunboats in Lake Ponchartrain, and command the Alabama river, and establish a base of supplies for Sherman at Selma. while others believe the troops are destined for Fortress Monroe." This force may be designed to co-operate

with Gen. Slocum's expedition from Vicks-burg, which has recently been reinforced, and is again marching into the interior of

Mississippi.

Rebel accounts of Slocum's expedition to Jackson, Miss., claim that the Federal column under Gen. Elliott were attacked at FORTRESS MONROE, July 18, via Balti-ore, July 19.—The Norfolk News received the junction of the Port Hudson and Rod-ney roads on the 5th and repulsed with great slaughter, the road for miles being strewn with dead negroes, horses, guns, &c. This doubtless refers to the expedition consisting of the Marine brigade and two regiments of negroes, which marched from Rodney on the 4th, and were attacked by five brigades of rebel cavalry and infantry and after fighting nearly all day the rebels Rebel News from Atlanta and were driven off. Our troops returned to their boats. Our loss was about one hundred and fifty killed, wounded and missing.

From Memphis and Below.

MEMPHIS, July 17 .- Vicksburg advices of the 12th report all quiet. The expedition under Gen. Slocum, reinforced by cavalry sent by Gen. Washburn, was marching again for the interior of Mississippi. The latest accounts from Gen. Smith place

him near Pontotoc. On the 10th Forrest issued a call for all citizens between the ages of 15 and 65 to rally to his support, and old men and boys to come to take care of his horses while his

men engaged the enemy.

The report published in Northern papers that Forrest had communicated his intention of retaliation on our officers for any citizens who might be injured under Wash burn's recent railroad order, is false. The result proves conclusively the wisdom of Gen. Washburn's order. Nearly every train on the railroad for ten days previous to the issue of this order was fired upon by bushwhackers, and citizens and soldiers killed and wounded, while not a gun has been fired since the publication report that the circulation of the Chicago Times has been suppressed on the road is also false. Washburn considers that paper a valuable auxiliary, as it enables him to spot traitors, and no obstruction is placed n the way of its circulation within the limits of this command. Reports of affairs in Memphis made up by Cairo reporters are nearly all sensational, and should not be relied upon until corroborated.

[And it may be added that few reports from Memphis under WASHBURN'S administration of the telegraph are worth crediting.-EDS.]

Still in Pursuit of the Enemy.

[Tribune's Special.] Washington, July 18.—At seven o'clock last evening our forces were seven miles beyond Leesburg, in pursuit of the rebels, who were making rapid time up the Shen-andoah valley toward Staunton. A number of stragglers were captured by our cavalry and sent to the rear. It is believed Gen. Evans, who was severely wounded in the recent fight before Washington, was lying very low in the vicinity of Leesburg concealed by sympathizers. Heavy firing was heard yesterday at Great Falls in the direction of Edwards' Ferry, supposed to have been a collision between our advance

and the rebel rear.

On Saturday the enemy's pickets were posted along Grove Creek, about twentytwo miles above Chain bridge, twenty-five miles from Washington, and about half way from Drainsville and Leesburg. The rebels

were in strong force.

Rebel cavalry scouts in considerable numbers came into Sangley last night, three miles beyond chain bridge, found our pick-ets and cleared out with their knowledge quickened by musket bal's A Provisional Brigade, organized for the defense of Washington, and composed of the slightly wounded men from various hospitals, has been disbanded. ern Men at Niagara. NEW YORK July 19 .- A despatch from New York July 19.—A despatch from Niagara Falls says C. C. Clay, of Ala., Jacob Thompson, of Miss., Beverly Tucker and George N. Sanders are at that place to devise a basis for the action of the Chicago Convention, which they say will end the war and secure the triumph of the Democratic party. Though not claiming to speak for the seceded States as yet, they hold out strong hopes of getting their assent. The propositions are believed to be as follows:

First, the return of the seceded States to the Union; Second, assumption of the Confederate debts; Third, recognition of the freedom of slaves actually emancipated in freedom of slaves actually emancipated in the progress of the war, and the status quo ante bellum as to all others.

Another despatch says Horace Greeley is also at Niagara Falls, and it has already

been announced that Mr. Jewett is there. The Boat Race at Pittsburg. PITTSBURG, July 19.—The boat race to-day was characterized by considerable ex-citement among the sporting fraternity. The city was filled by strangers to witness it, and bet on their favorites. The surrounding hills and the roads along the river were crowded by thousands of spectators, while the river was dotted with boats. At the start Hamill took the lead, maintaining the position throughout; on turning the buoy he was about one hundred yards ahead, coming in at the close between two and three hundred yards in advance of

LIVERPOOL, July 9.—The steamer Yeddo. built at Bordeaux, it was supposed for the Confederates, has been sold to Prussia, and is now fitting for service at Brimer Hayen. The Great Eastern left here to-day for London, to take on the Atlantic cable, The London journals are filled with the proceedings of Parliament in the great party contest, to the exclusion of nearly everything else. The Times publishes nearly forty-two columns of last night's proceedings. The result is generally regarded as a satisfactory indorsement of the

ministerial policy, but no triumph.

The Confederate loan, under the Persia's ews, advanced to 69@70. LONDON, June 10 .- The Danish Minister

as resigned. Nothing was seen of the Florida or any other rebel cruiser. There is considerable mystery about the steamer Yeddo, which left Bordeaux on the 22d of June, nominally for Amsterdam. Her arrival at the latter port is not reported, and nothing certain is known of her whereabouts. The Opinion Nationale asserts that she will soon reappear fully armed and manned, with the Confederate flag flying. It is stated Semmes is too ill to take command of her.

NEW YORK, July 19 .- The Post's Washngton special says Secretary Fessenden will soon issue proposals for a more exten-sive loan than fifty million. He reports that the confidence felt in the Government by bankers and financiers in New York is one of the most gratifying features of his visit. The Post's money article says: learn that the Secretary will put a loan of one hundred million on the market.

Federal Prisoners Sent to Georgia. FORTRESS MONROE, July 18 .- We are informed by Major Mulford, general flag of truce agent, that our prisoners, as fast as captured, are removed to Georgia; most of the enlisted men to Andersonville, and the officers to Macon, Ga. All letters to our

prisoners of war will require the pre-pay-ment of ten cents Confederate postage. No News from Grant. Washington, July 19,-The boat from Fortress Monroe this morning brings no

news from Grant's army. The absence of rain causes some suffering in the army. Railroad Repaired. PHILADELPHIA, July 18.—The Baltimore

railroad is fully repaired, and trains are running regularly. PHILADELPHIA, July 19.—Gunpowder bridge is fully repaired. All trains are running regularly as heretofore to and from
